SECTION 4 CONTINUING PROFESSIONAL DEVELOPMENT (CPD)

Continuous Professional Development (CPD) is the systematic updating and enhancement of skills, knowledge and competence throughout your career. It should be closely linked to your current work. CPD can be taken from various sources including attending conferences, meetings or seminars, completing an academic course or informal reading. It is your choice to decide what is appropriate and this should complement both your technical and professional competencies.

As a professional institute grooming future talents, HKICM strives to organize CPD events to enhance professional competencies of its members.

All candidates are required to submit a proper record of CPD activities upon applying for admission, upgrade, transfer and reinstatement of membership.

Once you have been successful and become a HKICM member you will continue to undertake and record CPD activity each calendar year as part of your commitment to your ongoing professional development.

Your CPD must be relevant to the advancement or consolidation of knowledge specifically oriented towards the construction profession. It should have sufficient academic content and not be merely an acquisition of peripheral skills.

ALL members (except the classes of Construction Supervisor, Graduate and Student where such requirements are optional) should complete a minimum of 30 hours' CPD per year, in which 3 CPD hours must be organized by the Institute, on a mandatory basis starting 1 April 2017.

For more information on CPD policy and Log Sheet please go to [CPD And Training \(hkicm.org.hk\)](http://hkicm.org.hk)

Attention should be given to the principles underpinning CPD:

- i. CPD is the systematic acquisition, maintenance, improvement and broadening of relevant knowledge and skills, and the development of personal qualities necessary for the effective execution of professional duties throughout the construction manager's working career.
